

Help for Students Interested in Medical School

Got Med School Hopefuls?

- Help your students demonstrate the key characteristics medical schools programs look for in applications and interviews.
- Learn to spot the common missed opportunities when they apply and interview for medical school.
- Know the specifics to this process that will help them increase their confidence and re-group if they are unsuccessful the first time they apply.

Help your students increase their chance of success

Workshops*

Thinking about Medical School?

Helps students plan ahead for their best chance of success. Learn about strategic volunteering, university program/degree decisions & more. [Suitable for high school or university students].

2
hours

Applying to Medical School

Strategize about when and where to apply, and learn key elements for autobiographical sketches and CVs, clusters and short answers that stand out. Get tips for choosing and guiding referees. [Most suited to university students].

2.5
Hours

Applying & Interviews

The whole process. Uncover key strategies students can use to understand the pieces of this competitive process, apply effectively and prepare for Multiple Mini Interviews. [Most suited to university students].
